<b>Environmental</b>	Reducing carbon is key to the Council's response to the Climate Emergency and its responsible Environmental Management approach.																																																														
<b>Equality</b>	The impact of Climate Change is predicted to affect the most vulnerable in society and those already living in poverty. The town council must show leadership in addressing climate change and decarbonising our assets and services where possible.																																																														
<b>Financial</b>	Driving down our carbon footprint will also have the benefit of reducing fuel and energy consumption which will in turn save the council money in the long term. However, in some cases investment in equipment and infrastructure may increase short-term costs and the balance of these two opposing trends must be carefully assessed.																																																														
<b>Decision Requested</b>	To receive updated carbon footprint figures
